

=====

AROMAWEB RESTAURANT GROUP PRIVACY POLICY

=====

Last Updated: June 2026

1. THE DATA WE CONTROL

We respect user digital rights. This Privacy Policy governs data parameters handled across our platform interfaces, including booking data elements.

2. INFORMATION PROCESSING DEFINITIONS

- Input Parameters: Information like Full Name, Phone Numbers, and Special Requests are typed voluntarily by the user interface consumer.
- Technical Logs: Browser session values and page route identifiers used during navigation.

3. HOW DATA IS STORED (CLIENT-SIDE ORIENTATION)

To ensure safety, your data is NOT dispatched to remote server mainframes.

- Local Cache Utilization: Form details utilize local browser elements.
- LocalStorage Engines: Authentication scripts save credentials into the host machine's internal localStorage array context. Data never leaves your device sandbox.

4. THIRD-PARTY EXCLUSIONS

AromaWeb does not sell, distribute, rent, or trade your personal information parameters to advertising networks, metrics trackers, or data-broker units.

5. CONTACT AND DISCLOSURES

For changes, resets, or clearance of cache states, users can simply purge their browser application history or dev-tools application arrays locally.
